1. Introduction

PURPOSE OF THE DETAILED SPECIFICATION DOCUMENT

This document provides a comprehensive and detailed architectural overview of the system design in order to give the development team guidance on architecture of the system to be developed. Its intended audience is the Business Sponsors, Project manager, project team and development team. Some portions of this document such as the user interface (UI) may on occasion be shared with the client/user, and other stakeholder whose input/approval into the UI is needed.

PROJECT OVERVIEW

Project title

L7M Online Food Ordering System – LOFOS

Terminology

- MAWAQAA – National Web Solutions Company
- UI/GUI – User Interface/Graphical User Interface. Portion of the product where the user sees and interacts with.
- UX – User Experience
- QA – Quality Assurance. A planned and systematic process necessary to provide adequate confidence that the product optimally fulfils customer expectations
- Admin – Administrator/Administrator Section
- Project Owner – Mawaqaa Client or an authorized representative
- Development Change – Not Covered under Current Scope

2. Scope Of Work

The Scope of work will be to develop a system for online Butchers ordering. The system will include following parts and features:

- A set of mobile applications (IOS & Android) for customers.
- An online dashboard for restaurants to manage the menus and the orders.
- An online dashboard for system owner to manage the whole system.
- A part for developing the online Butchers ordering website for customer's use, will be also covered in the solution.

In the existing system, we have some limitations.

- This system is very tedious and not user-friendly.
- It's quite difficult to get item for customers and also for serving.
- This system is time consuming.
- This system has not a centralized control, therefore client has to visit the place, difficult to search from the large shop list.

So in the new system, we will have more simplicity.

- ✓ It will be a complete computerized system and user-friendly environment.
- ✓ The system is a compatible online presence for both butchers and customers.
- ✓ Searching the shop and items will become very easy in the system.
- ✓ Customer will order any meat, chicken or fish of multiple shop from anywhere.
- ✓ It will provide the facility to view Photographs of different items from multiple shops.
- ✓ Security can be maintained.
- ✓ We can generate several Reports.
- ✓ The mobile applications will provide the required services for customers to browse through the different Butchers pages and food menus and order the foods. Butchers can use the website in order to ask for new Butcher registration.

The L7M Online Food Ordering System (LOFOS) will be basically interconnected with Butcher Management System and a Payment System to ease the customer's payment. So totally, we have the following major modules.

- ✓ Online Food Ordering System
- ✓ Butchers Management
- ✓ Payment System

Generally, we can say that the system will consist of two parts: a mobile application part and a Server Portal. The last part by itself consists of a "Website for customer's use, a Web Portal for both owner and Butcher's use. All changes to the website from the back end interface will be reflected to the mobile applications via a set of Web Services.

The mobile applications will provide the required services for customers to browse through the different Butchers pages and food menus and order the foods. Vendors can use the website in order to ask for new Butcher registration.

Order process

- Customers submit their orders via mobile apps and do the payments (Except for Cash on Delivery).
- The payments will go to the system owner's bank account.
- Butcher owners will be notified and prepare the order and send it to the customer on the provided address.
- The Butcher operators will update the status of the order once it is delivered.
- After receiving the order, each customer can rate the service and write comments. The comments will go through approval process by the system owner's dashboard before get published.
- Customers can use the system as guest and order their foods.
- Customers may get registered in the system. Registered users have the benefit of viewing their order histories.
- In addition to display the company's contact details and some other informative pages like about us page, users will be able to select the preferred language (Arabic or English).
- The mobile applications will enable the customers to search for any specific food item or Butcher.

3. FRONTEND STRUCTURE

The following will be the components for L7M Online Food Ordering System (LOFOS).

1. Header

- 1.1 Logo & Name
- 1.2 Login (Sign-In)
- 1.3 Registration - (New User) (Registration Form or / By Facebook / Twitter / G+)
- 1.4 Language Switcher (English/ Arabic)

2. Home page

Main Menu

- 2.1 Home
- 2.2 All L7m Shop
- 2.3 New L7m Shop
- 2.4 Most Selling L7m
- 2.5 Promotion

Side Menu

- 2.6 List of L7m to select category/Type of L7m
- 2.7 List of Areas to select Kuwait's Areas
- 2.8 Find L7m Shop button (Search Button after selecting one Area/L7m's category) then Go to result page.

Body

- 2.9 Banner – Sliding show images
- 2.10 About Company

a. About company (brief 3-4 lines; if user clicked on “Read more” they’ll be navigated to detailed page with the full text.)

b. Vision & Mission

3- Hot Links for inner Pages

c. All L7m Shop

d. Join Us

e. Most Selling L7m/Orders

4- Browsing Area By

f. Browse by L7m Shop

g. Brows by L7m Type

h. Browse by area

5- Chat Module

3. Footer Area

Footer Contains:

3.1 Available Payment Methods (Description & Links)

- Cash on delivery, KNET, Visa /Master

3.2 Social Links

- Facebook, Twitters, YouTube, Instagram

3.3 Static Links (in all inner pages)

- About us, Contact Us, Add L7m Shop, Feedback, Terms, FAQs (static page have fixed questions), Privacy, Sitemap.

3.4 Inner Page:

- **All L7m Shop Page** - List all L7m Shop with brief description.
- **L7m Shop Page** – Display L7m Shop with brief description.
- **Most Selling L7m** - List most selling L7m with brief description
- **Promotion** - List of promotion and brief description on it
- **Sign in** - Login page
- **New Users** - Register page
- **About Us page** - About Company & Vision & Mission
- **Privacy page** - Company privacy

- **Company terms and conditions** - to be static Page (edit by administrator), it contains questions & answers
- **Feedback** - User will be able to send his feedback on site (design, order process, usability) and write his comments then press submit button to send direct to administrator Email
- **Frequently Asked Questions (FAQ) page** - to be static Page (edit by administrator), it contains questions & answers
- **Contact Us page** - User will be able to fill-up his information in the fields such as: (Name, Phone Number, comments), then press submit button to send direct to administrator Email.
- **Privacy Policy page** - It will be static page (edit by administrator) - contain text only
- **Social Media Link** - Integrate with Facebook, Twitter, YouTube, Instagram, etc...
- **L7m Shop page** - Details of L7m Shop (delivery areas, L7m, time deliver, min charge...etc.), can be edited by the administrator.
- **L7m Shop Menu page** - List of L7m Shop menu (order button) / side box L7m Cart (add more, Place Order), the user can comment and rate on menu of L7m.
- **Order Summary page** - Delivery Information, Order Summary, User will select time of delivery (Now or later at choosing the preferred date/time), Confirm Your Order / Payment method.
- **My Account page** - User account information
- **Join Us** – New Shop owners will submit a form to have his butcher shop within the L7M Platform

4. STRUCTURE IN DETAIL

4.1. FRONT END

The User's Dashboard page will be the landing page for the L7M Online Food Ordering System. By default, the landing page will be in English version. Basically this will be developed as one-page layout, but if we need any extra pages, we will create separately.

4.1.1. HEADER

The header will have the logo of the system, sign in area, new registration icon and the language switcher.

Logo

The L7M Online Food Ordering System's Logo, will be linked with the dashboard of the system English/Arabic. While the current language is in Arabic, then the link will be linked to Arabic dashboard. If language is in English, then the English dashboard will be linked.

Login

The registered user can book any events, booking history and their profile information. The user can enter into his/her account using one of the following way.

- Using Normal L7M Online Food Ordering System's login
- Using Facebook

- Using Twitter
- Using Google+

This form includes the below fields

- First Name
- Last Name
- Email

- Phone
- Address
- Country - By default, the visitor's country will be selected by the device's location.
- Password
- Confirm - Password

After creating the account, the system will send email notification to the user in the registered email. Admin can manage all the profiles of registrants, and he/she can confirm registrations. The account confirmation will be notified

Language Switcher (English/ Arabic)

The user can view the website in two different languages by using Language switcher.

عربي

A red rectangular button with the word "عربي" (Arabic) written in white. It is positioned within a dashed red rectangular frame.

4.1.2. HOME PAGE

Home page will be the landing page for the L7M website. By default, the landing page will be in English version. This page will be having summary information of all the main part.

The screenshot displays the L7M.com website homepage. At the top, there's a navigation bar with links for 'HOME', 'ALL L7M SHOP', 'NEW L7M SHOP', 'MOST SELLING L7M', 'PROMOTION', and a search bar. A large banner in the center features a close-up of raw meat with the text 'FRESH MEATS' and 'Tender, Healthier & Tastier meat straight from farms'. Below the banner is a 'FIND OUR SHOPS' button and a search interface with dropdowns for 'List of L7m', 'Type of L7m', 'Select Area', and a 'Search' button. The main content area has a heading 'WHO WE ARE' with a brief description of Lorem Ipsum. It includes sections for 'Vision' (eye icon) and 'Mission' (brain icon), both with placeholder text. Below this are three circular thumbnails: 'ALL L7M SHOP' (butcher shop interior), 'NEW L7M SHOP' (butcher shop interior), and 'MOST SELLING L7M/ORDERS' (butcher shop interior). To the right of these thumbnails is a large image of raw meat with herbs. Further down, there's a map of Kuwait City with a location pin, a 'BROWSING AREA BY' section with dropdown menus for 'Browse By L7M Shop', 'Browse By L7M', and 'Browse By Area', and a 'CHAT FACILITY AVAILABLE' button with a live chat icon. The footer contains links for payment methods (CASH, DEBIT, VISA, MasterCard), static links (About us, Contact us, FAQs, Add L7m Shop, Feedback, Terms & Conditions, Privacy Policy, Sitemap), and social media icons for Facebook, Twitter, YouTube, and Instagram.

4.1.3. ALL L7M SHOP

A list of registered L7M shops will be displayed with brief details and an image on each of them. Customers will be able to see the rating results given by the customers who have ordered from each specific L7M shop. The page will show the delivery time between customer's current location and the L7M shop. By clicking on each shop from the list, users will be directed to another page display the details of that specific vendor and the related list of provided food items. Amongst the information the customers can see the list of delivery areas for each L7M shop.

The All L7m Shops will be managed from admin panel. The content will be managed as a data list from the admin panel.

4.1.4. BUTCHER SHOP

Each shop will contain the following:

- Shop Title
- Short Descriptions
- Long Descriptions
- Image / Image gallery
- Location - The admin can manage the visibility (whether to show or not)
- Delivery time
- Delivery charge and Minimum Delivery charge

The screenshot shows a website layout for a shop detail page. At the top, there's a navigation bar with links for 'HOME', 'ALL L7M SHOP', 'NEW L7M SHOP', 'MOST SELLING L7M', 'PROMOTION', and a sign-in section for 'New User'. The main banner features raw meat and herbs. Below the banner, a red button says 'SHOP DETAIL'. A circular icon with a storefront symbol is centered above the shop details. The shop details section includes a photo of the shop interior, a 'SHOP ADDRESS' box with address information, and contact numbers. The contact information is as follows:

	(+965) 1-898-888
	info@L7Mshop.com

ABOUT SHOP

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum...

TIME DELIVER : 2 HRS

MIN CHARGE : 15 KD

The detail page will have shop name, description about the shop, location, shop images, delivery time, delivery charge etc. The visibility of 'SHOP ADDRESS' box can be managed from admin panel. The left section shop image may be stretched to right (full width) if the visibility of the 'SHOP ADDRESS' is in hidden. The visibility of 'Map' section can be managed from admin panel. Also he/she can set the location attributes as well (latitude and longitude). All the sections in this page including logo can be managed by admin.

This page will display the items provided by each L7M shop (Butcher), which customers may scroll up and down and see brief on each item like food category, contents, price, other user's comments and ratings.

4.1.5. JOIN US

This section is to fill a request to add new butcher shop to L7m platform. The butcher shop owner will add his shop details as the following:

- First Name
- Last Name
- Telephone
- Email Address
- Cuisines
- L7M Name
- L7M Details
- Accepting Terms and conditions (Checkbox with label link)

This can be managed from the admin panel by the L7M Admin. The request form page will be as like below:

The screenshot shows a user interface for adding a new shop. At the top, a red bar contains the text "ALL L7M SHOP". Below it is a large circular button with a pencil icon labeled "ADD L7M SHOP". A descriptive text below the button reads: "To join our corporation, please fill in the forms below and we will contact you as soon as possible". The form consists of several input fields: "First Name", "Last Name", "Telephone", "Email Adress", "Cuisines", and "L7M Name". There is also a large text area for "L7M Details". At the bottom left is a checkbox with the placeholder text "Lorem ipsum dolor sit amet, consectetur adipiscing elit.". At the bottom right are two buttons: "RESET" and "SUBMIT".

Similar products from the same L7M shop will be displayed at the bottom area. All ordered items will be added to the shopping list which can be viewed via cart page. Users may see all order details with the total price, and they will be able to delete any of the items or edit the number to be ordered. The list can buy items from many vendors.

The screenshot shows the L7M.com website's homepage. At the top, there is a navigation bar with links for 'HOME', 'ALL L7M SHOP', 'NEW L7M SHOP', 'MOST SELLING L7M', 'PROMOTION', and a sign-in option for 'New User'. The main banner features a large image of raw meat. Below the banner, a red button labeled 'SHOPPING CART' is visible. A red arrow points down from this button to the shopping cart page.

Follow us on social media for getting latest informations.

Then, the user may proceed with the order by clicking on “Checkout”

The user would select delivery address, Order Summary, Delivery Time, and Payment method in the same page.

If the payment method is NOT cash, it will be redirected to the payment gateway.

Unregistered users are able to use the system as guests and make their orders. They will need at least to provide their names, addresses (PACI number) and mobile phone numbers. If PACI number is entered, the system will get the related address by calling PACI API and user must confirm, otherwise the user must enter address by selecting the postal area and write the street name and building number.

COMPLETE

Thank you! Your order is complete.

Your order reference is 10032532.

Lorum ipsum is simply dummy text of the printing and typesetting industry. Lorum ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged.

Once the order is completed by the customer, the thank you page will be displayed. Also the user will be notified with an email.

Once the order is reported “Received” by Butcher’s operator, the customer is enabled to put his rating on both the food item and the Butcher service. The customer may also put his comments which will need to be approved by one of L7M shop admins to get displayed publicly.

The customer will be informed by an email and push notification, when the butcher’s operator flags the order as “On Route”.

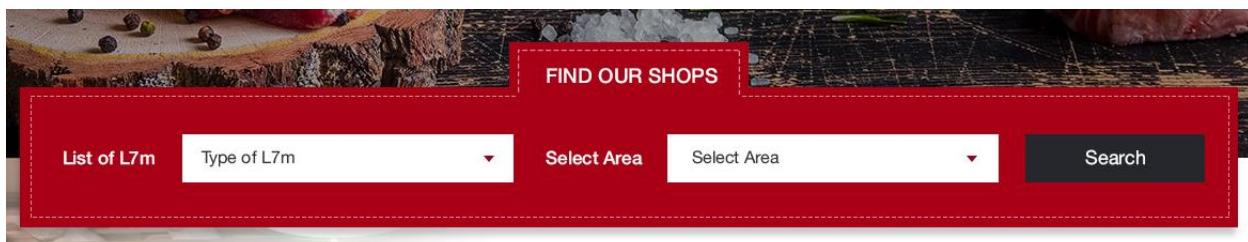

Summary steps on how to order Items?

- Add dishes to cart
- The user can view items in the basket (name, price, qty.), they can view do the following actions.
 - ✓ They can update/delete items in basket
 - ✓ Check out process by selecting Payment Method.
 - ✓ They can proceed with their account with L7M or they can make a quick ordering process by providing only name, phone and email.
 - ✓ They can view order summary & Confirmation Order.
- The system will connect the users to Payment page based on Payment Method they are selecting.
- Thanks Page / Rating
- If payment using one of the payment method is failed, then they can try again with other available payment methods.
- They can view order receipts and print.

4.1.9. SIDE MENU

User can search shops by selecting area and a type from the L7m category list. The shops will be displayed in result page.

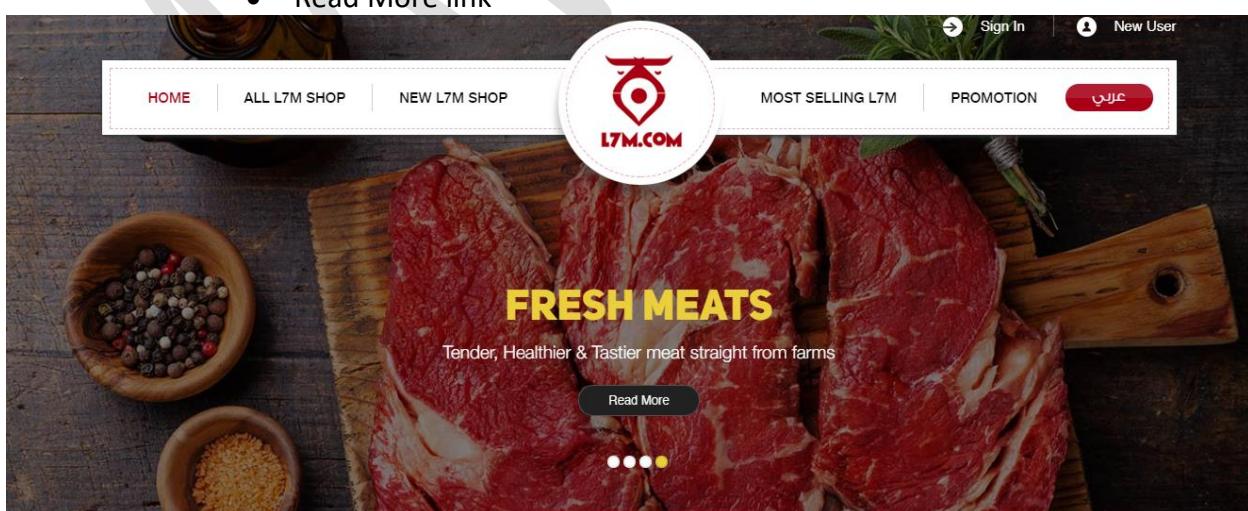

4.1.10. BODY

Sliding Banner

The home sliding banner will be managed from admin panel. All the inner page will have the same sliding banner, which should be managed from admin panel.

This section includes the below

- Title
- Descriptions (Optional)
- Image
- Sort Order
- Read More link

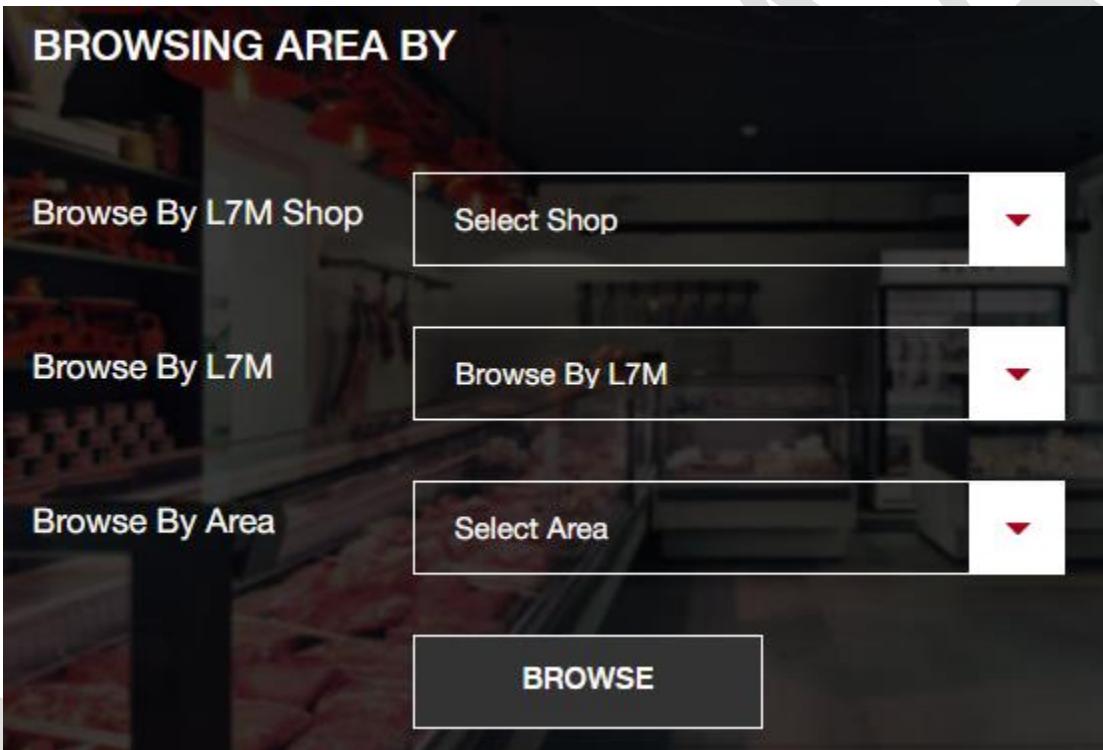

4.1.11. ABOUT COMPANY

There will be a brief information about the company; if user clicked on “Read more” then the detailed page with detailed information will be displayed. The same will be for Vision & Mission.

4.1.12. BROWSING AREA BY

The user can Browse by L7m Shop / L7m Type / Area. Then the list of all shops will be displayed as per search criteria. The user can also get the complete shop details such as name, location, opening hours and closing hours, etc.

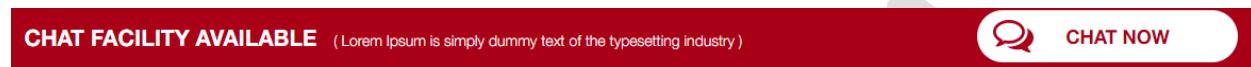

A screenshot of a mobile application interface titled "BROWSING AREA BY". The background shows a blurred image of a shop interior with shelves. On the left, there are three buttons: "Browse By L7M Shop", "Browse By L7M", and "Browse By Area". To the right of each button is a dropdown menu labeled "Select Shop", "Select L7M", and "Select Area" respectively. Below these dropdowns is a large, dark grey rectangular button with the word "BROWSE" in white capital letters.

5- Chat Module

The chat module enables the user to chat with the support team. Text and video chat will be available. Admin can Turn On/Off the use of Chat Service (Text & Video). The standard call option is available under all circumstances.

 - (1) By Order Number(optional)
 - (2) From and To Date (required)
- View Transaction Detail
- Print Transaction Detail (Allow user to print the report or save it as Excel - Transaction Detail View)
- Email Transaction Detail

5. COMMON FUNCTIONALITIES

The following are the common functionalities

5.1 AVAILABLE PAYMENT METHODS (DESCRIPTION & LINKS)

In order to enable the users paying their dues, the system will be integrated with different payment gateways like KNET, Visa and Master cards. The user can select the type of payment from this section. There will be the following payment methods available for L7M Online Food Ordering System.

- ✓ KNET
- ✓ VISA/MasterCard
- ✓ Cash on delivery

By selecting any of the payment methods from the page, the user can complete the payment process.

5.2 PAYMENT GATEWAY

If the payment method is “KNET” or “VISA/MasterCard”, then the user will be redirected to the payment gateway page with secure connection (SSL). After completing successful payment, the order will be placed and the user will be redirected to most seller/promotion page. If the payment is not successful or cancelled, the order will not be placed and the user will be redirected to the “payment not complete” page with the transaction details, they can try with other available payment methods. There will be print option for the user to print the details. The same details will be sending to the user’s email. All of the transaction details will be saved to the backend for keeping track of the transactions. User can see all the transaction histories.

5.3 EMAIL NOTIFICATION

- ✓ There will be email notifications from the system on customer registration, forget password and reset password for customers.
- ✓ The customer will also receive the email notifications while they order.
- ✓ These email notifications will be in an email template that is matching with the ordering System website theme. The L7M’s logo will be included in all the email templates.

- ✓ Email notifications will be sent using **L7M Online Food Ordering System's** SMTP, and so L7M Team will provide their SMTP details during development phase.

5.4 PACI

- ✓ The system will be integrated with PACI API in order to fetch the customer address by entering the PACI number.

Mawaqaa

6. Project Documentation Approval

The undersigned acknowledge they have reviewed the **L7M Online Food Ordering System** Functional Documentation document and agree with the approach it presents. Any changes to this Requirements Definition will be coordinated with and approved by the undersigned or their designated representatives.
